INTRODUCTION

Congratulations on your employment at **K1 SPEED PADDOCK LOUNGE**! As an establishment that serves alcoholic beverages, it is our responsibility to provide you with the necessary training to responsibly sell and serve alcoholic beverages. The following material is intended to be used as a guide and educational tool. Most states require servers of alcoholic beverages to participate in a state certified alcoholic beverage training in addition to the training they receive from their employer. This Responsible Alcohol Service Plan is not intended to meet state certification. Rather, it is intended to educate our employees on company policy with regard to alcohol awareness. We take great pride in our quality beverages and friendly, responsive service. Our high standard can only be maintained through great people like you who share our values and desire to do the very best job possible for our guests every day.

Once again, welcome to the **PADDOCK LOUNGE** at K1 Speed Team!

STEPS TO RESPONSIBLE ALCOHOL BEVERAGE SERVICE

PADDOCK LOUNGE is committed to the responsible service of alcoholic beverages. In accordance to this commitment, all employees are required to follow the procedures below:

1. No employee will serve an alcoholic beverage to anyone under the age of **21**.
2. All employees will carefully check identification of anyone who appears to be under **30** years of age.
 - a. Acceptable documentation is a valid state driver's license with a photo or photo ID issued by the state of Arizona.
 - b. The employee will carefully check the identification to determine its authenticity. The manager should be informed if there is any appearance of forgery or tampering.
 - c. In the absence of authentic identification, or in a case of doubt, the employee will refuse service of alcoholic beverages to the customer.
3. No employee will serve an alcoholic beverage to anyone who is intoxicated.
4. No employee will serve alcoholic beverages to anyone to the point of intoxication.
5. It is the employee's responsibility to notify the manager when a customer shows signs of intoxication or is requesting alcoholic beverages above the limits of responsible beverage service.
6. Any intoxicated customer wishing to leave the establishment will be urged to use alternative transportation provided by the establishment. Be sure to fill out a refusal of service form.
7. All employees are obligated to inform law enforcement authorities when intervention attempts fail.
8. No employee will drink alcoholic beverages while working.
9. All employees who serve/sell alcoholic beverages will successfully complete a state certified Seller/Server training course when beginning employment.

The sale/service of alcoholic beverages should not be a routine! It is one of the few legal products you can sell that could put you in jail.

THE MANAGEMENT FULLY SUPPORTS THESE POLICIES AND WILL STAND BEHIND OUR EMPLOYEES IN THEIR DECISIONS TO PROMOTE RESPONSIBLE SERVICE.

UNDERSTANDING THE PHYSIOLOGICAL EFFECTS OF ALCOHOL

Alcohol passes through the mouth down the esophagus and into the stomach and on into the small intestine. At each point along the way ethyl alcohol can be absorbed into the blood stream. However, the majority of the alcohol is absorbed from the stomach (approximately 20%) and the small intestine (approximately 80%). In general drinking more alcohol within a certain period of time will result in increased blood alcohol concentrations (BAC) due to more alcohol being available to be absorbed into the blood.

The presence of food delays absorption of alcohol. Physiological factors such as strenuous physical exercise also decrease alcohol absorption. Additional factors such as drugs (e.g. nicotine, marijuana, and ginseng), that modify physiological factors regulating gastric emptying also modify alcohol absorption. Dilution alcoholic beverages with water may decrease the absorption rate, but mixing with carbonated beverages increases the absorption rate. A healthy body eliminates 90% of alcohol through the liver at a rate of approximately ½ ounce of pure alcohol (1 drink) per hour.

Alcohol's direct action on the brain is a depressant. It generally decreases the activity of the nervous system. Alcohol's action on the brain produces a number of other behavioral effects. These effects are dependent upon the amount of alcohol take in, the time period over which the alcohol is drunk, and other factors such as whether other drugs are being taken at the same time, the previous drinking history of the individual, the physical state of the person doing the drinking, and the genetic background of the individual (i.e. ethnicity, gender). Higher blood alcohol levels may impair balance, memory and muscular coordination. Increased amounts of alcohol consumption within a short time span may cause severely affected judgement, blunted sensory perception and loss of control.

BLOOD ALCOHOL CONTENT (BAC)

Blood alcohol concentration (BAC) describes the amount of alcohol in a person's blood expressed as weight of alcohol per unit of volume of blood. For example, at 0.10 percent BAC, there is 100 mg of alcohol per 100 ml of blood. Like the rest of the nation, Arizona has adopted 0.08 percent as the legal BAC limits for drivers 21 years of age and older; however, you can be charged with Driving Under the Influence (DUI) with a lower limit if your ability to drive is compromised.

Most beers contain 4-5% alcohol; wines 12% on average, and distilled beverages average from 40% (80 proof) to 50% (100 proof) alcohol. **K1 SPEED PADDOCK LOUNGE** only serves beer and wine, and does not serve distilled beverages.

Other Facts about Blood Alcohol Content

What is the effect of alcohol on driving skills and crash risk?

At BAC as low as 0.02 percent; alcohol affects driving ability and crash likelihood. The probability of a crash begins to increase significantly at 0.05 percent BAC and climbs rapidly after about 0.08 percent. For drivers age 35 and older with BAC at or above 0.15 percent, the likelihood of being killed in a single-vehicle crash is more than 380 times higher than it is for non-drinking drivers.

How many drinks does it take to reach significantly impairing BAC?

The effects of alcoholic drinks vary greatly because the rate of absorption and BAC attained vary from person to person due to such factors as weight, amount of fat tissue and stomach contents. Nevertheless, various organizations have developed charts intended to help people estimate their BAC based on the number of drinks consumed. These tables can be used to estimate BAC, but they are subject to error.

Is beer and wine less impairing than hard liquor?

Impairment is not determined by type of drink but rather by the amount of alcohol ingested over a specific period of time. There is a similar amount of alcohol in such standard drinks as a 12 oz. glass of beer, a 4 oz. glass of wine, and 1.25 oz. of 80 proof liquor. Beer is the most common drink consumed by people stopped for alcohol-impaired driving or involved in alcohol-related crashes.

The following chart provides an estimate of the BAC for an individual based on the weight of the person and the number of drinks they have consumed. This chart assumes that one drink is 12 oz. of beer at 4.5% alcohol and 4 oz. of wine at 12% alcohol.

Subtract .015% for each hour of drinking.

KNOW YOUR LEGAL LIMIT. In the state of Arizona that means 0.08 percent of Blood Alcohol Content or any amount which results in loss of normal use of mental or physical faculties. This table is only a guide and NOT sufficiently accurate to be considered legal evidence. The figures you calculate are averages. Individuals may vary somewhat in their personal alcohol tolerance. Food in the stomach affects the rate of absorption. Medications, health and physiological condition are also influential factors. In any case, if you've been drinking at all, be careful!

THE SURESET POLICY IS..... DON'T DRIVE AFTER DRINKING!

DETECTION OF INTOXICATED PERSONS

The responsible service of alcohol requires that servers be able to recognize intoxicated patrons. Use these detection guidelines to help recognize intoxication.

1. Common Indicators

- Bloodshot/unfocused eyes

- Slurred speech
- Smell of alcohol on breath
- Mental confusion
- Impaired motor skills
- Dishevelment
- Impaired balance
- Signs of nausea or loss of bladder/bowel control

2. Warning Signs of Illegal Intoxication

- Development of one or more common indicators
- Heated altercations
- Rapid or pronounced changes in mood, behavior or emotional state

3. Mistaking Illness for Intoxication

- Similar symptoms
- Need for prompt, correct action
- Medic-alert jewelry, a warning sign
- Visual representation of medic-alert jewelry

4. Atypical Drinkers

- Experience and tolerance may mask intoxication
- Special efforts required to detect intoxication in some very experienced drinkers

5. Monitoring Costumers

- Count drinks and use BAC chart
- Interview and rate costumers prior to sale. Be alert to and probe for hidden indicators and warning signs.
- Note customer's initial mood and conduct and watch for changes in mood or behavior
- Observe costumer interactions
- Re-interview and re-rate customers prior to each additional sale

DETECTION OF MINORS

The service of alcoholic beverages to minors is a crime. You, as well as **K1 SPEED PADDOCK LOUNGE**, can be charged with a crime for doing so. The following points can be used in recognition of minors. The primary deterrent we have against serving minors is to ask for identification. The policy for **K1 SPEED PADDOCK LOUNGE** is to request identification from anyone appearing to be **30 years old or younger**.

1. Physical characteristics common to minors

- Signs of underage status
- Lack of physical maturity
- Most minors mature in physical appearance before age 21

2. Fads and fashions in clothing, accessories and grooming popular with minors

3. Behavior patterns characteristics of minors

4. Suspicious behaviors typical of minors attempting an illegal purchase

- Pooling money and giving it to the oldest appearing member of the group
- Minor waiting in the background away from the point of purchase while adult obtains more than one serving
- Adult making repeated purchase for a young appearing person

5. Detecting invalid I.D.

- Deceptively similar
- Counterfeit
- Altered
- Borrowed/Stolen

INTERVENTION WITH MINORS

Professional and respectful intervention is required once you recognize that a minor has received or tried to receive alcoholic beverages.

- 1. Proper demeanor of seller.** Remain professional, courteous and calm.
- 2. Examination of an identification card.** Request to see their I.D. always including the word 'please'.
- 3. Removal of alcoholic beverages from minor's reach or possession.** Once it has been determined that the guest is a minor, you must remove the drink from their possession.
- 4. Sample words and phrases**
 - *"May I see your I.D. please?"*
 - *"I'm sorry; it is against the law to serve minors. We'll have to take your drink"*
 - *"I'll have to take your drink until a manager can verify you are of legal age"*
- 5. Contacting law enforcement authority when intervention fails.** The server should always call a manager before contacting law enforcement. The manager can then inform the minor patron that unless the patron complies, there will be no other choice than to call law enforcement.

INTERVENTION WITH INTOXICATED PATRONS

Professional and respectful intervention is required once you recognize that a patron is intoxicated.

- 1. Proper demeanor of seller.** Remain professional, courteous and calm.
- 2. Designated driver programs.** Intoxicated patrons should be urged not to drive. In the absence of a designated driver you should inform them of the **K1 SPEED PADDOCK LOUNGE** alternative transportation program.
- 3. Early intervention techniques**
 - Use various methods to slow service of beverages
 - Try to serve food and alternative beverages

- Warning concerning caffeine products. Caffeine has no effects against the alcohol; both compounds will remain in the person. The alcohol is a depressant and will make the person tired, caffeine will only make them awake but they would remain intoxicated. Time is the only real effect to neutralize alcohol.
4. **Cut-off intervention techniques**
 - Remove alcoholic beverages
 - Arrange an immediate safe ride
 - Contact manager and/or law enforcement if necessary
 5. **Sample words and phrases**
 - *"Management has prohibited me from serving any more drinks to you."*
 - *"you have reached the maximum number of drinks I am allowed to serve you, Would you like me to call a manager for approval to serve more?"*
 - Managers can use a discreet method to cut off a patron by calling them away from the table or bar as not to embarrass the patron. One method is to tell the patron they have a phone call. Once they are away from other guests you can politely inform them that they will not be served any more alcohol.
 6. **Obligation of seller to inform law enforcement authorities when intervention attempts fail.** The server should always call a manager before contacting law enforcement. The manager can then inform the patron that unless the patron complies, there will be no other choice than to call law enforcement.
 7. **Sanctions for employee violations.** Illegal service of alcoholic beverages is a crime. You, as well as **K1 SPEED PADDOCK LOUNGE** can be charged with a crime for doing so. Additionally, DRAM shop laws are such that both the employer and employee may be held liable for serving intoxicated patrons that are later involved in accidents related to alcohol impairment.

DRAM SHOP LAWS – LIABILITY

Many states have enacted "dram shop" acts that create a civil cause of action (i.e. the basis for a lawsuit) against a business (and in some cases the employee) if the sale of alcohol to an intoxicated person results in injury to a third party. These laws also create liability for businesses that serve any alcohol to a minor who injures another person as a result. Not only do you need to understand the dram shop laws in your state, but also you need to make sure that anyone in your operation who serves alcohol understands and has training in them.

If a patron shows up drunk, not only should you refuse alcohol service, but also you should document the incident on a form created for this purpose. It need not be any format in particular, but it might include the following: the time of arrival and leaving, a description (including name if possible) of the patron, descriptions of other people in the patrons party, their actions or behavior that indicated inebriation, and the name and signature of the person filling out the form.

BEER & WINE REGULATIONS FOR SAFE KARTING

MANDATORY. K1 Speed employees will employ the following procedures to ensure karting does not take place after alcohol drinking in the Paddock Lounge restaurant:

1. Upon entering the facility, the Cashier will fit all customers with a plastic wristband allowing them to race (even if they are there to observe only and have no desire to race).
2. Upon completion of their racing, if customers are of 21 years of age or older and purchase beer or wine in the concession area café, the Restaurant Cashier will cut and remove their wristband, and replaced it with a fluorescent hand stamp.
3. Customers without bracelets will not be able to race. In the event that a customer violates the rules by attempting an unauthorized re-entry into the line to purchase a racing ticket, the Cashier will search the Computer record to see whether that customer has raced that day, and the hand stamp will identify this customer as having consumed beer or wine. The Cashier will deny this customer a racing ticket. If any questions, the Manager or Assistant Manager on the floor will make the decision.
4. All Cashier counters will have an operational breathalyzer available at the cashier counter to identify any arriving customers who appear to be intoxicated.
5. Beer and wine purchase and drinking will be confined to the concession area café portion of the K1 Speed center. Notice shall be provided by the Restaurant Cashier. The Manager or Assistant Manager on the floor will enforce this if any questions or debate with a customer.

ALCOHOL AWARENESS

Alcohol awareness is a growing concern within the hospitality industry nationwide. By recognizing the "early" signs of intoxication, monitoring your customer's consumption, and treating them as you would a guest in your own home; you fulfill your responsibility and protect the guest.
