Subject: Air Quality Conformity Determination for Knoxville, Tennessee

Dear Mr. Meservy:

The Federal Highway Administration (FHWA) Tennessee Division and Federal Transit Administration (FTA) Region IV Office, in coordination with the Environmental Protection Agency (EPA) Region IV Office, have reviewed the Air Quality Conformity Determination adopted by the Knoxville Regional Transportation Planning Organization (KRTPO) Executive Board on October 26, 2022 and the Lakeway Area Metropolitan Transportation Planning Organization (LAMTPO) Executive Board on November 9, 2022.

The Air Quality Conformity Determination covers the Knoxville, Tennessee maintenance area for the 1997 and 2008 8-hour ozone and the 2006 Daily PM_{2.5} National Ambient Air Quality Standards (NAAQS) and addresses the planned transportation improvements from the KRTPO's amended 2045 Metropolitan Transportation Plan (MTP), the new FY 2023–2026 Transportation Improvement Programs (TIPs) for the Knoxville Regional TPO and Lakeway MTPO planning areas, and the portions of the State of Tennessee's Statewide TIP in the Knoxville, Tennessee maintenance area.

Based on our review, we find the documents conform to the ozone and PM_{2.5} NAAQS for Knoxville, Tennessee.

If you have any questions regarding this determination, please contact Zack Coleman, Transportation Planning Specialist, FHWA Tennessee Division at (615) 781-5777 or Andres Ramirez, General Engineer, FTA Region IV at (404) 865-5611.
