## **ITB - Ballfield Pole Demolition at Lakeshore Park – Technical Approach**

Capital Energy Group LLC (CEG) is a Woman owned small business based in Knoxville, TN. CEG is a WBE, SBE, and a WOSB. We are licensed in a myriad of states including Georgia, Florida, Louisiana, California, South Carolina, Ohio, Kentucky and most proudly Tennessee. Our projects over the years have ranged from residential housing demolition to work on the highly regulated DOE and DOD reservations to commercial nuclear power generating plants. Our work history shows our management is focused and qualified by not having any OSHA recordable incidents over our many years of operation. We work as a team by employing family oriented Christian personnel who are given the right and obligation to stop work if they see an unsafe act, a change in conditions or if they are not sure of the responsibilities assigned them to complete the task.

We feel it is important to keep all those involved in the daily activities informed on the days and weeks objectives. Crafts who are performing the work are an essential part of completing work safely. Their input is welcomed at any time during planning or performance of the scope as it is assigned each day. CEG encourages our clients to attend our Plan of the Day meetings where safety is the number one topic and starts all of us off in the correct frame of mind. We develop our plan and work to that plan with an open mind which accepts safer and more efficient paths forward as they may be developed. CEG understands and agrees that we cannot operate without respect for those who are hands on and we show our gratitude in many ways, most importantly by assuring a safe place to work.

**Per OSHA regulations for concrete cutting 19261153 Table 1, CEG's certified safety manager will perform silica sampling. Our employees will be using a concrete saw with an integrated water delivery system. All documentation will be submitted to the City of Knoxville.**

The land which Lakeshore Park occupies originally belonged to the Cherokee tribes. The Government bought it from the Cherokee Indians as part of the Treaty of Holston (1791) and again as the Treaty of Philadelphia (1863). It later was purchased by the State of Tennessee and in 1886. The State opened the East Tennessee Hospital for the Insane which operated under that name until 1976. In July of 1976 the State Mental Health Commissioner directed all mental health facilities to change their name. In October of that year the facility became Lakeshore Mental Health Institute. In 1993, the State agreed to lease sixty (60) acres to the City of Knoxville for use as a public park, which began the construction of baseball fields. In 1996, a non-profit Lakeshore Conservatory was founded and a partnership with the City of Knoxville signaled a new chapter in furthering the development of the campus. In 2013 the Lakeshore Mental Health Institute was shuttered ending 127 years of service. The land is a pristine piece of water front land that is still managed by the Park Conservancy and enjoyed by the local residents for relaxation, sports and an occasional wedding.

CEG's Management has visited the sight and is confident in their approach for the safe removal and demolition of the sixteen (16) concrete poles as described in the bid documents. Upon receiving the award, CEG will provide any additional submittals and permits, as required to receive a Notice to Proceed from the City of Knoxville. We are prepared to mobilize at a minimum the following personnel:

- 1 X Project Manager/Superintendent
- 1 X Certified Safety Manager
- 1 X Operator
- 2 X Laborers
- 1 X Electrician

---

To safely and efficiently perform the demolition and removal of the concrete poles and to compact the soil used to fill the void left by the below grade excavation CEG will mobilize the following equipment:

1 X Kobelco Excavator Equipped with a Hydraulic Thumb  
1 X 80ft Manlift  
1 X Takeuchi TL12V Skid Steer Loader  
1 X CAT 1255 Telehandler  
1 X Jumping Jack Tamper or equivalent  
Hand Tools, Thermal Cutting Devices, Cables and Slings

CEG will begin work by performing a job walk with the management and employees to discuss the developed plan with all concerned and to familiarize the workers with the sequence of the demolition as well as the assigned responsibilities of each team member. We will coordinate with the park representative to agree on the best location to deliver and unload the above described equipment to limit travel on paved surfaces and to keep disturbance to grass areas a minimum. When this stage has been completed, preparation for the demolition work can begin. All work will be performed between the hours of 7 a.m. and 4 p.m.

Fencing and warning tape will be securely placed to prevent unauthorized persons from entering the work area. Areas along nearby walking paths will be fenced selectively even though outside the actual travel zone for equipment or central work location. Warning signs will be posted to warn of overhead work being performed. A spotter will be assigned to ensure no one walks into a danger zone.

It is our understanding that power to the poles has been terminated or disconnected. Prior to cutting wires or removing lights our electrician will confirm the service has been de-energized. Wires can then be cut safely at the base of the pole. The manlift will be moved into place and the two laborers will operate and maneuver the basket to a position where each light fixture will be removed. Lights that are mercury vapor will be disposed of properly. Because of manlift capacity it may be necessary to limit the number of lights removed in each cycle. When the lights have all been removed on the individual pole, the telehandler will reach to the light frame and the "U"-bolts either cut with a torch or unbolted. The frame will be lowered to the ground and containerized for recycle. Removing the lighting fixtures and rack will leave the pole ready to remove. The excavator will be attached to the pole well above the central balance point with the use of synthetic slings of appropriate capacity. Each sling will have a label that lists allowable load limits in any application. With the pole securely fastened to factory applied lifting ring on the excavator bucket, the pole will be cut near the base and lowered to the ground in a controlled manner. Once on the ground the pole will be cut into length for legal transportation to a concrete recycling facility. The excavator will dig and crush the remaining pole to a minimum of five feet (5') below ground level. Approved clean soil will be placed in the void created and compacted to the desired percentage. CEG will not provide compaction sampling for the newly placed fill. Before moving to the next pole, the disturbed areas will be graded for seeding and straw. The CEG electrician and the laborer will pull any remaining power source wire and disconnect it from the proper electric panel. The above operation will be repeated for each of the sixteen (16) poles.

Capital Energy Group is looking forward to the opportunity to work with the City of Knoxville.

**Warranty Information: CEG certifies that the demolition, removal, disposal, backfill, and seeding will be per the bid documents. All applicable structures will be removed**

Any Contract resulting from this Invitation to Bid shall be governed by and construed in accordance with the substantive laws of the State of Tennessee and its conflict of laws provisions. Venue for any action arising between the City and the Vendor from the Agreement shall lie in Knox County, Tennessee.
  25. **Insurance:** When applicable and prior to the commencement of the contract, contractor must, at its sole expense, obtain and maintain in full force and effect for the duration of the Agreement and any extension hereof at least the following types and amounts of insurance for claims which may arise from or in connection with this Agreement. Contractor shall furnish the City of Knoxville with properly executed certificates of insurance which shall clearly evidence all insurance required by the City. All insurance must be underwritten by insurers with an A.M. Best rating of A-VIII or better. Such insurance shall be at a minimum the following:
    - A. **Commercial General Liability Insurance:** occurrence version commercial general liability insurance, and if necessary, umbrella liability insurance, with a limit of not less than \$2,000,000 each occurrence for bodily injury, personal injury, property damage, and products and completed operations. If such insurance contains a general aggregate limit, it shall apply separately to the work/location in this Agreement or be no less than \$3,000,000.
- Such insurance shall:
- a) Contain or be endorsed to contain a provision that includes the City, its officials, officers, employees, and volunteers as additional insureds with respect to liability arising out of work or operations

performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. The coverage shall contain no special limitations on the scope of its protection afforded to the above-listed insureds. Proof of additional insured status up to and including copies of endorsements and/or policy wording will be required.

- b) For any claims related to this project, Contractor's insurance coverage shall be primary insurance as respects the City, its officers, officials, officers, employees, and volunteers. Any insurance or self-insurance programs covering the City, its officials, officers, employees, and volunteers shall be excess of Contractor's insurance and shall not contribute with it.
- c) At the sole discretion of the City, dedicated limits of liability for this specific project may be required.
- B. Automobile Liability Insurance:** including vehicles owned, hired, and non-owned, with a combined single limit of not less than \$1,000,000 each accident. Such insurance shall include coverage for loading and unloading hazards. Insurance shall contain or be endorsed to contain a provision that includes the City, its officials, officers, employees, and volunteers as additional insureds with respect to liability arising out of automobiles owned, leased, hired, or borrowed by or on behalf of Contractor.
- C. Workers' Compensation Insurance:** Contractor shall maintain workers' compensation insurance with statutory limits as required by the State of Tennessee or other applicable laws and employers' liability insurance with limits of not less than \$500,000. Contractor shall require each of its subcontractors to provide Workers' Compensation for all of the latter's employees to be engaged in such work unless such employees are covered by Contractor's workers' compensation insurance coverage.
- D. Other Insurance Requirements:**

Contractor shall:

- Prior to commencement of services, furnish the City with original certificates and amendatory endorsements effecting coverage required by this section and provide that such insurance shall not be cancelled, allowed to expire, or be materially reduced in coverage except on 30 days' prior written notice to the City Attorney of Knoxville, P.O. Box 1631, Knoxville, Tennessee 37901. Proof of policy provisions regarding notice of cancellation will be required.
- Upon the City's request, provide certified copies of endorsements and policies if requested by the City in lieu of or in addition to certificates of insurance. Copies of policies will only be requested when contracts are deemed to be extremely or uniquely hazardous, include a dollar amount that is significant to the overall budget of the City or a City Department, or the coverage(s) may not follow standard insurance forms. A policy will only be requested after the City's Risk Manager has reviewed the contract and proof of coverage has been provided. Should the certificate of insurance refer to specific coverage wording or endorsements(s), proof of such policy wording or endorsement(s) will be required.
- Replace certificates, policies, and endorsements for any such insurance expiring prior to completion of services.
- Maintain such insurance from the time services commence until services are completed. Failure to maintain or renew coverage or to provide evidence of renewal may be treated by the City as a material breach of contract.
- If Contractor cannot procure insurance through an insurer having an A.M. Best rating of A-VIII, Contractor may, in the alternative, place such insurance with insurer licensed to do business in Tennessee and having A.M. Best Company ratings of no less than A. Modification of this standard may be considered upon appeal to the City Law Director.
- Require all subcontractors to maintain during the term of the Agreement Commercial General Liability insurance, Business Automobile Liability insurance, and Workers' Compensation/Employer's Liability insurance (unless subcontractor's employees are covered by Contractor's insurance) in the same manner as specified for Contractor. Contractor shall furnish subcontractors' certificates of insurance to the City without expense immediately upon request.
- Large Deductibles/Self-Insured Retentions: Any deductibles and/or self-insured retentions greater than \$50,000 must be disclosed to and approved by the City of Knoxville prior to the commencement of

services. Use of large deductibles and/or self-insured retentions may require proof of financial ability as determined by the City.

- **Waiver of Subrogation Required:** The insurer shall agree to waive all rights of subrogation against the City, its officers, officials, and employees for losses arising from work performed by Contractor for the City. Proof of waiver of subrogation up to and including copies of endorsements and/or policy wording will be required.
- **Occurrence Basis Requirement:** All general liability policies must be written on an occurrence basis, unless the Risk Manager determines that a claims made basis is reasonable in the specific circumstance. Use of policies written on a claims made basis must be approved by the City. Risk Manager and retroactive dates and/or continuation dates must be provided to the City prior to commencement of any work performed. Professional Liability and Environmental Liability (Pollution Coverage) are most commonly written on a claims made basis and are generally acceptable in that form.

26. By execution and delivery of a bid submission, the bidder agrees that any additional terms and conditions, whether submitted to the City purposely or inadvertently, shall have no force or effect.
27. **Indemnification and Hold Harmless:** The successful bidder will be required to sign a contract which contains the following indemnification clause. This indemnification clause will not be altered in any way. Failure to agree with this indemnification clause in the contract may result in the City moving to the next responsible responsive bidder.

Contractor shall defend, indemnify and hold harmless the City, its officers, employees and agents from any and all liabilities which may accrue against the City, its officers, employees and agents or any third party for any and all lawsuits, claims, demands, losses or damages alleged to have arisen from an act or omission of Contractor in performance of this Agreement or from Contractor's failure to perform this Agreement using ordinary care and skill, except where such injury, damage, or loss was caused by the sole negligence of the City, its agents or employees.

Contractor shall save, indemnify and hold the City harmless from the cost of the defense of any claim, demand, suit or cause of action made or brought against the City alleging liability referenced above, including, but not limited to, costs, fees, attorney fees, and other expenses of any kind whatsoever arising in connection with the defense of the City; and Contractor shall assume and take over the defense of the City in any such claim, demand, suit, or cause of action upon written notice and demand for same by the City. Contractor will have the right to defend the City with counsel of its choice that is satisfactory to the City, and the City will provide reasonable cooperation in the defense as Contractor may request. Contractor will not consent to the entry of any judgment or enter into any settlement with respect to an indemnified claim without the prior written consent of the City, such consent not to be unreasonably withheld or delayed. The City shall have the right to participate in the defense against the indemnified claims with counsel of its choice at its own expense.

Contractor shall save, indemnify and hold City harmless and pay judgments that shall be rendered in any such actions, suits, claims or demands against City alleging liability referenced above.

The indemnification and hold harmless provisions of this Agreement shall survive termination of the Agreement.

28. **Termination:** The City may terminate this Agreement at any time, with or without cause, by written notice of termination to the Contractor.

If the City terminates this Agreement, and such termination is not a result of a default by the Contractor, the Contractor shall be entitled to receive as its sole and exclusive remedy the following amounts from the City, and the City shall have no further or other obligations to the Contractor: the amount due to the Contractor for work executed through the date of termination, not including any future fees, profits, or other compensation or payments which the Contractor would have been entitled to receive if this Agreement had not been terminated.

The City may, by written notice of default to the Contractor, terminate the whole or any part of this Agreement if the Contractor fails to perform any provisions of this Agreement and does not cure such failure within a period of ten (10) days (or such longer period as the Purchasing Agent may authorize in writing) after receipt of said notice from the Purchasing Agent specifying such failure. If this Agreement is terminated in whole or in part for default, the City

may procure, upon such terms and in such manner as the Purchasing Agent may deem appropriate, supplies or services similar to those terminated.

### **Diversity Business Enterprise (DBE) Program:**

The City of Knoxville strongly encourages prime contractors to employ diverse businesses in the fulfillment of contracts/projects for the City of Knoxville.

The City of Knoxville's Fiscal Year 2023 goal is to conduct 4.3% of its business with minority-owned businesses, 10.3% of its business with woman-owned businesses, and 34.8% with small businesses.

As such, the City encourages prime contractors to seek out and consider competitive sub-bids and quotations from diverse businesses.

For DBE tracking purposes, the City requests that prime contractors, who are bidding, proposing, or submitting statements of qualifications, report whether or not they plan to employ DBE's as sub-contractors or consultants.
